ANUAL REPORT

OF THE

BOSTON AND MAINE

1893-94.

PAILROAD.

WEDNESDAY, OCT: 10, 1894.

STRAWDOAKDS USB. 097 E657-

SIXTY-FIRST ANNUAL REPORT

OF THE

DIRECTORS

OF THE

Boston & Maine Railroad

TO THE

STOCKHOLDERS,

FOR THE

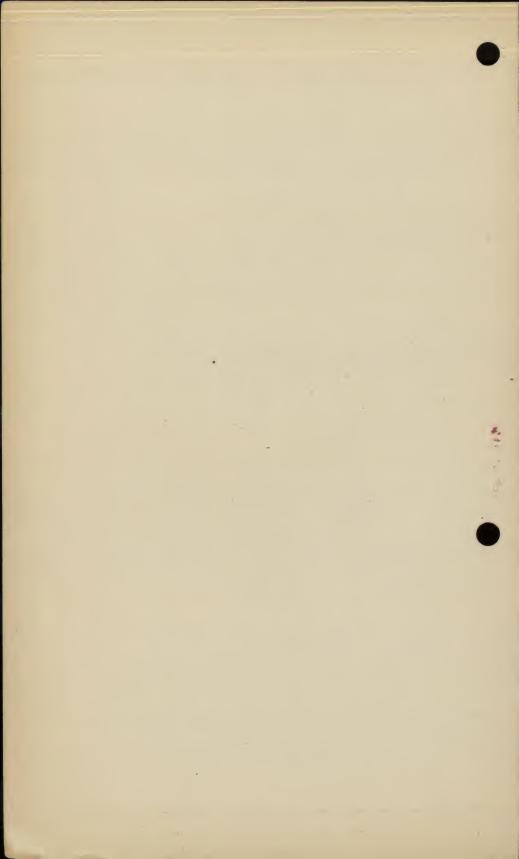

YEAR ENDING JUNE 30, 1894.

WEDNESDAY, OCT. 10, 1894.

BOSTON:

THE STILLINGS PRESS, 53 SUDBURY STREET.

1894.

BOSTON AND MAINE RAILROAD.

The Annual Meeting of the Stockholders of the Boston and Maine Railroad will be held at Lawrence, in the City Hall, on Wednesday, October 10, 1894, at 10.30 o'clock a.m., for the following purposes, viz.:—

- I. To hear and act upon the Report of the Directors.
- II. To elect Directors for the ensuing year.
- III. To transact any other lawful business.

By order of the Directors,

BOSTON, Sept. 6, 1894.

SIGOURNEY BUTLER. Clerk.

Stockholders only will be passed free to and from the place of meeting, on exhibiting their certificates to the conductors.

Stockholders are requested to take passage in the trains provided for them, and thus avoid the annoyance to passengers by crowding the regular trains.

Stockholders residing upon any of the leased lines, or upon the Concord & Montreal Railroad, will be passed to and from Lawrence, on the day of the meeting, upon the presentation of their certificates to conductors.

Stockholders going from either direction beyond Lawrence, before the adjournment of the meeting, will be charged regular fares between Lawrence and the stations to which they take passage.

The special stockholders' trains will leave Dover at 8.00 a.m., and Boston at 9.10 a.m., for Lawrence; and will leave Lawrence for Boston at 12.15 p.m., and for Dover at 12.30 p.m.

Stockholders from Portland and stations east of North Berwick will take the train which leaves Portland at 7.00 A.M.; and returning to stations between Rollinsford and Portland, will take the trains which leave South Lawrence at 1.44 and 4.58 P.M.

Stockholders from the line of the Eastern Division, east of Salem, will take the train which leaves Portsmouth at 7.20 a.m., and change cars at Salem, where they will find a special stockholders' train, which will leave Salem for Lawrence at 9 o'clock a.m.; and stockholders on the Eastern Division west of Salem can take any of the morning trains arriving at Salem before 9 o'clock a.m., and at Salem change to the stockholders' train. Returning, stockholders' train will leave Lawrence for Salem at 12.45 p.m.

Stockholders from Northern Division will take the train leaving Wolfeborough Junction at 6.35 A.M., and change cars at Rochester and Dover, taking the main line train at Dover for Lawrence at 8.00 A.M.

Stockholders from the Southern, Concord or Passumpsic Divisions will take any of the regular trains arriving in Lawrence before 11 A.M. on the morning of the meeting, and return by any of the regular P.M. trains.

By order of the Directors.

GENERAL OFFICES IN UNION PASSENGER STATION,

CAUSEWAY STREET, BOSTON

SIXTY-FIRST ANNUAL REPORT.

To the Stockholders of the Boston and Maine Railroad:

Your Directors respectfully submit the following report, exhibiting the result of the operations of your road for the year ending June 30, 1894:—

The Gross Transportation Earnings for the year ending June 30, 1894, were Operating Expenses (68.039 per cent)	\$15,962,276 91 10,860,580 04
Net Transportation Earnings	\$5,101,696 87
Other Income	652,874 75
Net Income	\$5,754,571 62
Taxes \$822,017 70 Interest on Funded and Unfunded Debt 1,213,391 16 Rent of Leased Lines 2,311,370 48	
2,011,010 10	4,346,779 34
Surplus of Net Income over fixed charges	\$1,407,792 28
Sinking Fund Payments less Bonds cancelled,	67,282 50
Balance available for Dividends	\$1,340_509 78
Preferred Stock, paid September 1, three per cent \$94,494 00 Preferred Stock, paid March 1, three per cent \$94,494 00 Common Stock, paid November 15, two per cent \$348,310 00 Common Stock, paid February 15, one and one-half per cent \$261,238 50 Common Stock, paid May 15, one and one-half per cent \$261,246 00 Common Stock declared, payable August 15,	
one and one-half per cent 261,249 00	
Total	1,321,031 50
Balance in excess of all Charges and Dividends,	\$19,478 28

The business of the year as compared with that of the previous year is as follows:—

Number of Tons carried One Mile	100,022,			

^{*} Includes the business of the Connecticut River Railroad for six months only.

The general depression in the mercantile and manufacturing business of the country, which has continued since the beginning of the fiscal year, has unfavorably affected the earnings of your property, so that the gross income has decreased, compared with the previous year, \$1,219,823.26. The operating expense has been decreased \$875,917.22, and the surplus applicable to dividends and sinking funds has fallen off \$689,766.96. The fixed charges increased \$345,860.92, of which \$234,145.62 is accounted for by the fact that the operations of the Connecticut River Railroad are included for the full year, against six months of the previous year. While the losses in earnings were distributed over the entire system, they were most severe upon the more thickly populated portions, especially in the manufacturing and suburban districts within a radius of fifty miles from Boston. None of the Company's leased lines have proved burdensome, all, including the Connecticut River Railroad, having fully paid their operating expenses, fixed charges and rentals, from the income they have directly contributed upon their own lines, without taking into account their great collateral benefit as feeders of the general system.

While close economy in the administration of the property has been necessary, and the decrease in traffic has admitted of extensive reductions in train mileage, both passenger and freight, and in the number of persons employed in the transportation and mechanical departments, without diminishing the efficiency of the service, it has not been considered advisable to allow the condition of the roadway, rolling stock and permanent structures to depreciate, and they have been kept fully up to the standard of the previous year.

The reduction of the quarterly dividend payments since the first quarter, from \$2.00 to \$1.50 per share, has been widely commended, and is believed to have received the approbation of stockholders generally.

In the early part of the fiscal year, the Company's floating debt was about four million dollars. Two million dollars of 7 per cent bonds would fall due on the first day of January. There was needed for carrying on necessary permanent improvements, mainly connected with the Boston passenger and freight terminals, contracted for during the previous fiscal year, about two million dollars additional, a total of about eight million dollars, the provision of which was urgently demanded. Although the stringency of the

money market made it an unfortunate time for selling the Company's bonds, the conditions were likewise highly unfavorable for continuing to carry so large a floating indebtedness; and after the most careful consideration your Board decided unanimously to sell six million dollars of Boston and Maine 4½ per cent 50-year bonds, and one million, nine hundred and twenty-eight thousand dollars of bonds of its leased and proprietary lines, to provide the funds for discharging the floating indebtedness, refunding the expiring bonds, and paying for the permanent improvements aforesaid. The discounts and commissions incident to these bond sales amounted to \$391,313.90, which amount has been charged to profit and loss, as appears on page 17 of the General Auditor's report annexed hereto.

The bonds of the leased and proprietary lines sold consisted of \$600,000.00 Boston and Lowell 4 per cent 20-year bonds, and \$1,328,000.00 St. Johnsbury and Lake Champlain Railroad 5 per cent 50-year bonds, turned over to this Company in part payment of advances made by it for permanent improvements upon those roads, the floating debt above referred to consisting in part of those amounts. The floating debt has been paid as rapidly as it became due, and at the close of the fiscal year was reduced to \$250,000. Of this \$100,000 has since been paid, and the balance will be paid at maturity, November first.

The funded debt amounts to \$21,741,780.21, an increase of \$3,906,555.15.

Of the \$2,000,000.00 seven per cent bonds that matured January 1, all but \$6,000.00 were presented and paid prior to the close of the fiscal year. Mortgage certificates of indebtedness of the Eastern Railroad Company, amounting at par to \$88,544.85 (\$35,500 payable in U.S. gold coin and £10,900—\$53,044.85—payable in sterling money of Great Britain), have been purchased by the Trustees of the Eastern Railroad and cancelled.

Thirty-three shares of common stock have been issued during the year, of which 13 shares were issued for capital stock of the Eastern and Wolfeboro' railroads, surrendered and cancelled, and 11 shares were issued in exchange for Boston and Maine scrip. The capital stock outstanding June 30, 1894, is 31,498 shares of preferred and 187,378 shares of common stock. The company owns 13,214 shares of its common stock, of which 9,452 shares are held by the Trustees of the Eastern Railroad as collateral security for the payment of its certificates of indebtedness, and 3,762 shares are held in your treasury. No dividends are paid upon this stock.

The road franchises and property of the West Amesbury Branch Railroad, heretofore operated by your road as lessee, have been purchased for \$100,000.00 in 4 per cent bonds of the Boston & Maine Railroad.

During the year 26 locomotives and 30 passenger cars, contracted for during the previous year, have been purchased. The Company has constructed at its own shops, 3 combination, 5 baggage, 1 baggage and mail, 3 milk, 22 caboose, 3 box, 13 flat, 2 derrick, 1 machinery, 3 flanger cars, and 3 snow-ploughs.

The total amount expended during the year for new rolling stock was \$414,594.16, of which \$123,200.00 was included in operating expenses; \$95,938.19 was charged to unexpended balance of the previous year's equipment fund, and \$195,455.97 to construction.

There has been expended during the year: for repairs of locomotives, \$265,913.28; for repairs of passenger, baggage, mail and express cars, \$395,287.83; and for repairs of freight cars, \$353,967.44.

The equipment consists of

570 Locomotives,

1,014 Passenger, Baggage, Mail and Express Cars.

10,291 Freight Cars,

209 Caboose Cars,

136 Tool and Road Cars.

68 Snow-Ploughs.

The operating expense for maintenance of way and buildings includes \$1,095,533.36 for repairs of roadbed and track, \$193,-212.84 for steel rails laid, \$242,086.54 for ties laid, \$256,502.42 for maintenance of bridges, and \$352,228.42 for maintenance of buildings and structures. Ten thousand four hundred and sixteen tons of new steel rails (86 miles) have been laid in main tracks, six thousand three hundred and ninety-four tons of partly worn steel rails (about 60 miles) have been transferred from main lines to branches and sidings, and the usual complement of angle-bars, track bolts, track spikes and frogs has been supplied therefor. The net increase of side tracks for the year is $22\frac{56}{100}$ miles.

Seven hundred and five thousand two hundred and seventy-nine cross ties and twenty-four thousand four hundred and ninety-three switch ties have been laid, and thirty thousand three hundred and sixty-two rods of fence built during the year.

Charges have been made to Construction and Equipment Accounts during the year as follows:—

Grand Total.

\$2,328,079 58

The Boston passenger terminals extend from Causeway Street, in Boston, to Somerville station; and the new construction comprised therein consists of the Union Station, the yard, the signal and switch system, the power house, and a coal shed for coaling passenger engines, having a storage capacity of 40,000 tons, a Pintsch gas plant for making and supplying gas for passenger ears, an enlargement of the passenger car storage yards at East Cambridge and Somerville, and sundry storehouses and buildings incident and necessary to transaction of the passenger business.

The Union Station, which was practically completed before the close of the fiscal year, and which was put into full operation for this Company's trains on the 17th of June, and for the Fitchburg Railroad trains on the 12th of August, contains twenty-three tracks and ample waiting and baggage rooms and carriage accommodation for the expeditious and convenient handling of the 600 trains and 100,000 passengers that daily arrive and depart therefrom.

[•] Six new locomotives, costing \$48,250, are stored, not yet being required in service.

The pneumatic switch and signal system adopted has been found entirely satisfactory and has realized our fullest expectation in its operation. The power house contains a battery of twelve boilers of 1,650 registered horse-power, and a large quantity of valuable electrical machinery of the latest and most modern construction. It supplies steam heat for the Union Station and general offices, and for all cars standing in the station; electrical power and compressed air for the operation of the signal and switch system, and for lighting the station and general offices, the passenger yard, the freight yard at Rutherford Avenue, and the docks and elevator at Mystic wharf. Taken as a whole, the Boston passenger terminal is believed to be the most complete plant of the kind yet constructed in this country.

The Rutherford Avenue freight plant at Charlestown has been much improved and added to during the past year, two new freight houses being now in process of completion. A considerable amount of vacant land remains unused, which can be adapted for the construction of additional freight houses and tracks as the future business of the Company may require. It is well situated and conveniently arranged, and fully justifies the wisdom of those who planned its construction.

At Haverhill, a freight yard planned several years ago has been completed, and together with an extensive brick freight house, then constructed but which has since remained unused, have been put into operation, and the transaction of the freight business has been removed from the vicinity of the passenger station and principal streets of the city, greatly to the satisfaction of its residents and to the advantage of the Company.

The second track of the Gloucester Branch is completed as far as Manchester, and that of the Medford Branch, including the construction of an extensive and commodious passenger station at Park Street, is practically finished. These improvements were begun during the previous fiscal year.

At Lawrence, a new four-track steel bridge has been constructed over the Merrimac River, replacing a double-track wooden bridge erected many years ago. Satisfactory enlargements of the freight and passenger facilities have been thereby accomplished, enabling a much more economical and expeditious handling of the traffic at that point.

The new passenger station at Middlesex Street, Lowell, has been completed, and, considering the somewhat cramped location,

is probably the most feasible solution of a difficult problem that could have been made.

A new passenger station is now under construction at Lynn, to cost about \$120,000.00. The old station has for many years been totally inadequate; but there were difficulties about the procurement of the additional land needed, and the abandonment and relocation of a public street, which have only recently been overcome. It is expected that the new station will be completed about the first of January.

Under an order of the Superior Court, Chelsea Bridge Street, which now crosses at grade the tracks leading to Mystic wharf and the grain elevator, is being elevated to do away with the grade crossing. The Company's proportion of the cost will be about \$300,000.00, and it is expected that this work will be completed before January 1.

The usual amount of enlargement and repair work has been done upon buildings and structures upon various parts of the road; but sundry important undertakings, in the way of new passenger station construction and grade-crossing elimination, which are desirable of accomplishment, have been temporarily postponed until times are more favorable for incurring large expenditures.

The general freedom from serious accidents which has characterized the operation of the property, especially during the constant and radical changes of tracks, signals, etc., incident to the construction of the Boston terminals, is largely due to the faithful and intelligent care exercised by every one engaged in the Company's service.

The appended reports of the General Auditor, the Trustees of the Sinking fund, and the Trustees of the Eastern Railroad, give full details of the administration and condition of your property.

By order of the Board of Directors,

LUCIUS TUTTLE,

President.

REPORT OF THE GENERAL AUDITOR.

Boston and Maine Railroad,
Accounting Department,
Boston, Sept. 1, 1894.

To the President and Directors of the Boston and Maine Railroad.

Gentlemen: I herewith hand you statements showing in detail the results of the operation of the Boston and Maine Railroad for the year ending June 30, 1894. The cash on hand, as stated on balance sheet, was verified by me and found to be correct.

No. 1. Statement of Earnings, Expenses and disposition of Net Earnings for the year.

No. 2. Profit and Loss Account.

No. 3. General Balance Sheet.

No. 4. Gross Transportation Earnings, Operating Expenses and Net Transportation Earnings, by months.

No. 5. Gross Earnings in Detail.

No. 6. Operating Expenses in Detail.

No. 7. Debt and Interest Accrued.

No. 8. Mileage and Traffic Statistics.

No. 9. Description of Road.

No. 10. Description of Rolling Stock.

No. 11. Performance of Locomotives.

No. 12. Report of Trustees of Sinking Fund for redemption of Boston and Maine Improvement Bonds.

No. 13. Report of Trustees Eastern Railroad.

All of which are respectfully submitted.

WILLIAM J. HOBBS,

General Auditor.

No. 1.
